What is the relation between time and space in our daily life? In consideration of the brilliant theory of relativity exposed by Albert Einstein, it is clear that the position where the individual is located in relation to the other variables is a key factor to determine this relation. On a personal level, we could say that only memories and experiences abide in our mind, leaving aside the timeline of these. It is true that the time seems to be accelerating when we are enjoying, even seems to pause being in the right place and with the right company. But these memories are, doubtlessly, what ends up importing and prevails over the velocity or slowness with which experienced.

At Pahi, we have over 44 years of experience and memories within the hair sector, whilst looking back and understanding our experience and our values that have helped shape our core brand we prefer to be forward thinking and use our vast experience to launch into the new stories that are to come.

ES

¿Cuál es la relación entre el espacio y el tiempo en nuestro día a día? Teniendo en cuenta la brillante ley del relativismo expuesta por Albert Einstein, está claro que un factor clave es la posición en donde se encuentra situado el individuo respecto a las otras variantes para determinar esta relación. A nivel personal, podríamos decir que sólo permanecen en nuestra mente los recuerdos y experiencias, dejando aparte la línea temporal de estos. Cierto es que el tiempo parece acelerarse cuando estamos disfrutando, hasta parece pausarse estando en el lugar y con la compañía adecuada. Pero estos recuerdos son, sin duda, lo que termina importando y prevalece a la velocidad o lentitud con la que se experimentaron.

En Pahi podríamos hacer un flashback 44 años atrás, en donde empezamos nuestra trayectoria en el sector, pero nos parece más interesante ahora mirar hacia adelante. Manteniendo, eso sí, todos los buenos recuerdos de los que hablábamos, la experiencia adquirida y los valores que marcaron nuestra esencia como marca para lanzarnos a las nuevas historias que están por venir.

Quelle est la relation entre l'espace et le temps dans notre quotidien? Tenant compte de la brillante loi du relativisme exposée par Albert Einstein, il est clair qu'un facteur clé est la position dans laquelle se trouve l'individu par rapport aux autres variantes pour déterminer cette relation. Sur le plan personnel, nous pourrions dire que seuls les souvenirs et les expériences restent dans notre esprit, en laissant de côté la chronologie de ceux-ci. Il est vrai que le temps semble s'accélérer lorsque nous prenons du plaisir, le temps semble même faire une pause en étant en place et en bonne compagnie. Mais ces souvenirs sont sans aucun doute ce qui finit par être important et régner à la vitesse ou à la lenteur avec laquelle ils ont été expérimentés.

Chez Pahi, nous pourrions faire un retour en arrière il y a 44 ans, lorsque nous avons commencé notre trajectoire dans le secteur, mais il semble plus intéressant maintenant de regarder vers l'avenir. Garder cela, oui, tous les bons souvenirs dont nous avons parlé, l'expérience acquise et les valeurs qui ont caractérisé notre essence de marque pour nous lancer dans les nouvelles histoires à venir. L'espace dans notre secteur semble un facteur clé. Et nous aimons offrir beauté et praticité aux professionnels. Les clients apprécient également l'harmonie de l'espace et tout ce confort et leur bien-être se traduisent par de bonnes expériences.

Qual è il rapporto tra tempo e spazio nella nostra vita quotidiana? Partendo dalla brillante teoria della relatività formulata da Albert Einstein, è chiaro che la posizione nella quale si colloca l'individuo nello spazio in relazione alle altre variabili è un fattore chiave per determinare questo rapporto. A un livello personale, possiamo dire che solo i ricordi e le esperienze rimangono nella nostra mente, travalicando la loro successione cronologica. E'sicuro che il tempo sembra accellerare quando siamo felici, sembra anche fermarsi quando siamo nel luogo giusto e con la compagnia adeguata. Tuttavia questi ricordi sono, senza dubbio, quello che conta veramente, a prescindere dalla velocità, o dalla lentezza, alla quale li abbiamo sperimentati.

In Pahi possiamo tornare indietro di 44 anni con un flashback, quando cominciammo il nostro percorso nel settore, ma a noi oggi sembra più interessante guardare avanti. Mantenendo, questo sì, tutti gli splendidi ricordi di cui abbiamo parlato, l'esperienza acquisita e i valori che hanno contraddistinto la nostra essenza come punto di partenza per proiettarci verso le nuove storie a venire.

Space is a key factor in our sector. And the thing is that we enjoy providing beauty and practicality where the professionals work. Though also the costumers enjoy the harmony of the space and all this well-being and comfort results in good experiences.

El espacio en nuestro sector nos parece un factor clave. Y es que disfrutamos aportando belleza y practicidad dónde trabajan los profesionales. También los clientes disfrutan de la armonía del espacio y todo este bienestar y comodidad da fruto a buenas experiencias.

Lo spazio nel nostro settore non sembra un fattore chiave. E ci piace offrire bellezza e praticità dove lavorano i professionisti. Anche i clienti provano piacere dall'armonia dello spazio e questo benessere e questa comodità contribuiscono a creare esperienze piacevoli.

Our work

EN

How we provide this perfection? First of all, in our opinion the human treatment is essential. Listening to you we learn every day and this cooperation provides solutions. Our company has always been based on the pillars of a familiar approach and covering the entire production process. We respond to the needs comprehending the costumers impression, adjusting the design and the assembly of the product. It is also of vital importance the “savoir faire” that we have been improving; the craftsmanship we practise is materialised in the finishes and is palpable in each sewing and in each laminated piece.

Therefore, we move towards that future walking together and we hope to continue much longer. Although that time seems relative, we are going to recall the satisfactions that will accompany us on this journey and where we will find the pause to enjoy the moment.

ES

¿Cómo se consigue aportar esta perfección? Primero de todo, el trato humano nos parece esencial. Escuchándote nosotros aprendemos cada día y esta cooperación aporta soluciones. Nuestra empresa se ha sostenido siempre sobre estos pilares basados en el trato familiar y abarcando todo el proceso de producción. Respondemos a las necesidades empezando por entender la idea del cliente acotando el diseño y montaje del producto. Es también de vital importancia el “savoir-faire” que hemos ido perfeccionando; la artesanía que practicamos se materializa en los acabados y se observa en cada costura y en cada laminado.

Así que avanzamos hacía ese futuro caminando junto a ti y esperamos hacerlo por mucho más tiempo. Aunque eso del tiempo parezca relativo, vamos a quedarnos con las satisfacciones que nos acompañaran en ese viaje y en donde encontraremos la pausa para disfrutar del momento.

FR

Comment cette perfection est-elle atteinte? Tout d’abord, le traitement humain nous semble essentiel. En vous écoutant, nous apprenons chaque jour et cette coopération apporte des solutions. Notre société a toujours été basée sur ces piliers basés sur le traitement familial et couvrant l’ensemble du processus de production. Nous répondons aux besoins en commençant à comprendre l’idée du client, en limitant la conception et l’assemblage du produit. Le savoir-faire que nous avons perfectionné revêt également une importance capitale. Le savoir-faire que nous pratiquons se matérialise dans les finitions et s’observe sous chaque couture et chaque bois poli.

Nous nous dirigeons donc vers cet avenir en marchant avec vous et nous espérons le faire encore plus longtemps. Bien que celle du temps semble relative, nous allons rester avec les satisfactions qui vont nous accompagner dans ce voyage et où nous allons trouver une pause pour profiter du moment.

IT

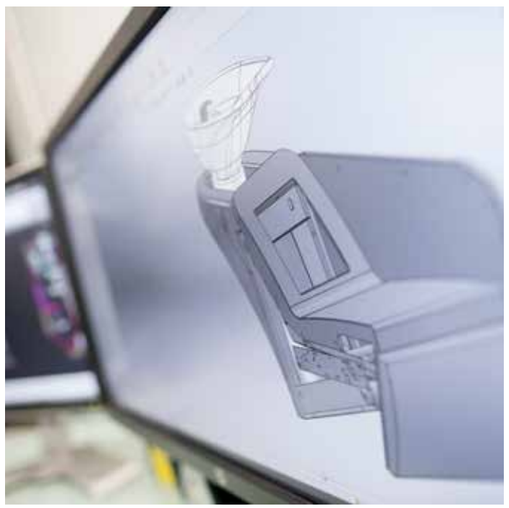

Come è possibile raggiungere questa perfezione? Innanzitutto, il fattore umano a noi sembra essenziale. Ascoltandoti noi ogni giorno impariamo qualcosa e questa rapporto porta nuove soluzioni. La nostra azienda ha sempre poggiato su questi pilastri: conduzione familiare e produzione interna. Rispondiamo alle necessità a partire dalla comprensione dell’idea del cliente, affinando la progettazione e l’insieme del prodotto. Inoltre è di vitale importanza il “savoir faire” che abbiamo acquisito nel tempo, il nostro sapere artigiano si concretizza nelle finiture estetiche e si rivela in ogni cucitura e in ogni legno levigato.

In questo modo noi procediamo verso il futuro assieme a te e speriamo di poterlo fare ancora a lungo. Benché il tempo ci appaia relativo,ci rimarranno le soddisfazioni che ci accompagneranno nel viaggio e le pause che riusciremo ad avere per “cogliere l’attimo”.
